

Subject: WikiArquitectura Student Awards 2017 - FREE for students

Dear professor Maravelaki,

My name is Guillermo. I'm the founder of [WikiArquitectura](#), a free online encyclopedia that thousands of architecture students use everyday.

Today I'm reaching out to you to let you know about the recent launch of the WikiArquitectura Student Awards 2017 (WAS awards) which are FREE for students to join and we hope will bring some of the best student projects of 2017 together for everyone to explore, admire and learn from.

The call for the WAS awards is international, so students from virtually every country in the world will be submitting their best work, which we believe can be a great experience for students, who rarely get a chance to see what other students are doing outside their schools.

Like I said **joining and submitting their projects is FREE for students, so we were hoping you'll be willing to help us spread the word amongst your students and encourage them to share their work with us.** The more students who participate the more diverse and enriching experience the WAS awards will be.

You may find more detailed information on the awards website <http://wasawards.com> or download the awards brief [here](#). Or if you have any particular questions do not hesitate to send them my way by simply replying to this e-mail.

Thanks in advance,
Guillermo at WikiArquitectura.
