July 29, 2025

Dear

Academic authorities, professors, and students

Faculties and Schools of Architecture and Urban Planning

Present

RE: Second Call for Registration Process, International Contest for Architecture and Urbanism Students, ICAUS ISKENDERUN 2025-2026.

Due to the different calendars and academic programs existing in the different continents and hemispheres where the universities that we have invited to participate in our international competition are located, we have had a large number of requests for extensions to our First Call for Official Registration, a Second Call has been defined to carry out the registration process of universities that wish to participate and register formally.

As part of this second call for registration, we want to confirm that we have defined the prizes that our contest will deliver to the student teams that are winners:

The first-place winner will obtain a prize of **3,000 EUROS**.

The second-place winner will get a prize of **1,500 EUROS**.

The third-place winner will get a prize of **900 EUROS**.

Finally, **2 Honourable Mentions** will be awarded.

This Second Call for university registration runs from today, **July 29, to October 10, before 8 pm (CET)**, date that will be the final deadline of the registration process of student teams interested in participating in our international contest.

To perform this registration process successfully for each of the teams that will represent their university, the Participating Team Registration Process must be completed.

For such purposes, **200 EUROS** must be paid for the registration of each of these teams.

To carry out this registration process more easily, quickly, and efficiently, we have enabled a Payment Campaign through a PayPal account, specially enabled for this purpose, which you can easily access through the following link that will direct you to the payment button that we have specially enabled on the website of our international contest:

<https://www.icausarchitecture.org/registration>

In addition to this, and for those universities that prefer it, we have a checking bank account especially associated with our contest, where you can easily make a bank transfer to pay for your registrations.

The details of this current account are:

Proyectos Arquitectura Thought Chile Ltda.

ID. 77.765.294-K.

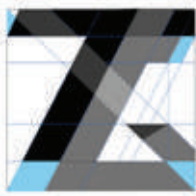

Banco Itaú Chile

Bank Account Number (IBAN): 226012458

Swift Code: ITAUCLRM

Itaú Bank Address: President Riesco 5537 Las Condes, Santiago de Chile.

Email: director@icausarchitecture.org

THOUGHT GROUP CHILE
THOUGHT, STRONG INFRASTRUCTURE AND URBAN PLANNED SOLUTIONS

Once the corresponding payment of 200 Euros has been made for each of the teams that wish to register, they must send us via email the proof of each of these payments together with the corresponding completed Registration Form.

It is very important to keep in mind that **a differentiated payment must be made for each participating team** so that the Director of Contest can carry out an adequate registration process. Once the payment for the registration of each of the teams has been made, the PayPal payment receipt must be sent along with the Registration Form that we attach to this letter.

This Form must be filled out with the information of each university, faculty, school or institute of Architecture and Urbanism, the number of teams that will be registered in our contest and the backup PayPal ID or the Payment Bank Receipt Number for each of the paid registrations.

This PayPal ID or the Payment Bank Receipt Number will be the Participation Code for each of the registered teams.

When each of the participating proposals is received by the Director of the Contest, this number will be replaced by the final Competition Code for each team.

Remember that this background information must be sent to the Director of the Contest by email **before 8 pm on Friday, October 10 of this year.**

Once this information is received, the Director of the Competition will send the Formal Confirmation Letter that the Participating Teams Registration Process has been completed and will attach all the technical documents detailing the rules, requirements and formats that will be required for the development of the proposals that will participate in this competition.

Also, remember that this background information must be sent to the Director of the Competition at director@icausarchitecture.org

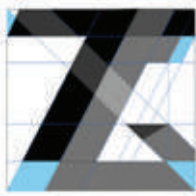

For further information, you can also visit our Official website: www.icausarchitecture.org

We look forward to seeing the support of your completed registrations.

All the best to you,

Cristián Alfredo Wittig Grell

ICAUS 2025-2026 ISKENDERUN

NEW RESILIENT PROSEISMIC CITY DESIGN

The goal of this contest is to create an innovative and conceptual **seismic-resilient solution** for rebuilding a devastated city, free from professional or economic constraints. Students are encouraged to design a **Pro-Seismic-Resilient city** that harmonizes with its geography, embraces seismic and tsunami challenges, and works with the natural movements of the land rather than against them.
